## EDUCATION

**The Ohio State University: Columbus, OH**  
— *B.S Computer Science and Engineering*

August 2019 - May 2023 (expected graduation)

GPA 3.681

**Beta Upsilon Chi Christian Fraternity** - *Pledge Captain*

- Pledge retreat chair for two semesters
  - Organized and ran two retreats for the pledge class each semester
- Elected for the officer position pledge captain for the 2021 academic year
  - Responsible for planning and running all of pledgship which includes pledge chapters, pledge tasks, ceremonies, and the curriculum each pledge must learn
- Cell group leader
  - Involves facilitating conversation with a group of guys once per week

**Cru Campus Ministries** - *Small Group Leader*

- Includes planning and leading a weekly Bible study

## PROJECTS

**Portfolio(personal)** - A responsive personal website built using ReactJS. Within the website, React Router API, Intersection Observer API, and EmailJS were used for the functionality and Github pages was used as the site hosting service.

**NaturalNumber Calculator(school)** - Reverse Polish Notation calculator built using a Java MVC GUI. A NaturalNumber object was used so there would be no bounds on the size of numbers used within the program

**Cryptocurrency Tracker(personal)** in progress - Using a cryptocurrency API from CoinGecko, a website was built with the functionality of viewing John's favorite currencies as well as being able to search for any currency and seeing the market cap, percent change, and description.

## WORK EXPERIENCE

**Two Men and a Truck:** Hilliard, OH

May 2021 - August 2021

Worked as a crew guy. The job included greeting the customer, prepping furniture, and moving the customers belongings to the new locations. Moves were done all around Ohio and sometimes out of state.
